Lubricating Position	Lubricant	Model	Grade
Engine	Engine Oil		Grade
Gear Box		85W/90	
Final reduction gear	Gear Oil		
Power Steering			
Clutch			
Bearing & Ball Pins	Lithium Based Lubricating Grease	Non-integral Lubrication: 2# Integral Lubrication: 00# or 000# hi-pressure lithium based grease	

Coolant Type: # A/C Coolant Type: R134a

Position of Use	Type (Length)	FUEL	Atmospheric Temperature	Type
From fan to fan intermediate pulley	20R240		Above 4°C	0# Light Diesel
From fan intermediate pulley to engine crankshaft	20R265		-5°C ~ -4°C	-10# Light Diesel
From A/C compressor to intermediate pulley	20R265		-14°C ~ -5°C	-20# Light Diesel
Engine belt	20R265		-29°C ~ -14°C	-35# Light Diesel
From A/C compressor intermediate pulley to engine	20R265		-44°C ~ -29°C	-50# Light Diesel
